

# Energy Efficient Buildings

## 4th GAST Travelling Conference 2013

### Kuala Lumpur – Singapore – Jakarta

The 4<sup>th</sup> GAST Travelling conference will be held in Kuala Lumpur, Singapore and Jakarta. It brings together leading experts from all over Germany and Southeast Asia to shed insights and experiences on the topic of energy efficient buildings. Designed for the construction and building equipment industry, participants will be exposed to a range of topics that cover the most recent developments available on the market. The conference speakers will be on hand to answer questions & provide valuable insights on the most current trends in technological advancement for the industry.

As part of the activities initiated by GAST Network and supported by German Federal Ministry of Education and Research, the invitation to attend the conference is extended to interested individuals in industry or to the public with compliments.

Speakers at the conference include:

- Dr. Milca Grahovac**, TU München and Lawrence Berkeley National Lab.
- Dieter Ziulkowski**, Thyssen-Krupp Singapore
- Dr. Matthias Berger**, Singapore-ETH-Center
- Hans Pleuger**, INSTec RWTH Aachen
- Dr. Frank Menzel**, evonik Industries AG, Hanau - tbc
- Dr. Isabel Nemeth**, TU München
- Dr. Ulrike Brokmann**, Technische Universität Ilmenau
- Dr. Manuela Junghänel**, Fraunhofer FEP, Dresden
- Dipl.-Ing. Alex Buechi**, Diener Syz, Jakarta - tbc
- Christof Loef**, Senior Scientist at ISEA/RWTH Aachen

43600 UKM Bangi,  
Selangor Darul Ehsan

##### Singapore

Friday, 18 Oct. 2013,  
09:00 to 18:00

German Institute of Science and  
Technology – TUM Asia  
10 Central Exchange Green  
#03-01 Pixel Building  
Singapore 138649

##### Jakarta

Monday, 21 Oct. 2013  
09:00 to 17:00

LIPI – Indonesian Institute  
of Sciences  
Widya Graha Building  
Jl. Jend. Gatot Subroto No. 10  
Jakarta 12710

**What is GAST Network?** The German - ASEAN Science & Technology Network was founded on November 16, 2009 as a platform to systematically develop German - ASEAN Science and Technology cooperation. Since early 2011, in conjunction with restructuring of the GAST Network, the focus has been redirected towards industrial/commercial cooperation to support the transfer of technologies from Germany to Southeast Asia.
